America Abroad is part adventure story and part history told in crisp narrative poems rich in searing imagery. In these poems, David Radavich explores America's complex history of discovery, destruction, and quest for power. With the keen eye of an historian and the heart and ear of a poet, Radavich uses a myriad of voices, from Ponce de Leon to Uncle Sam and Lady Liberty to explore America's adventurism with clear-eyed honesty. These poems deliver on the promise that "If you listen hard, / in the end you will be changed."

—Pat Riviere-Seel, author of *The Serial Killer's Daughter*

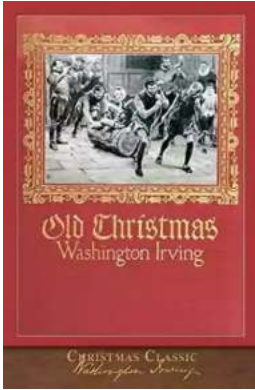

America Abroad: An Epic of Discovery, David Radavich launches his most ambitious expedition to date. Crossing continents and spanning centuries, this sequence traces historical trajectories from the Age of Exploration to the present. Indeed, we hear echoes of Whitman in its sweep and grandeur. Organized geographically, sections recount the "discovery" of the "New World" and exploration of the American West, as well as sojourns to the Arctic, South America, Asia, and finally the Far East. Along the way, we encounter persona poems speaking in the voices of adventurers, conquistadors, and survivors. This is a bold and expansive book, challenging readers to re-conceive the ways that history is said to rhyme.
