**He put her in danger and now he's the only one who can save her.**

Delta 6 is an elite team comprised of retired SEALs, the best-of-the-best, who have faced incredible conflicts and missions. Their motto is “Get in and get out, using all necessary force, and leave no man behind.” Working with Homeland Security, their team is the one called upon to do the impossible reconnaissance missions—and now they’re facing six big ones. Assigned to catch the six most wanted terrorists on friendly soil, each tough soldier will face brutal circumstances to bring the enemy to justice. And they’re willing to pay any price...

Enemies don’t always wear black and carry guns. Sometimes they’re beautiful doctors with raven hair and engaging blue eyes. Cason Driggs has been investigating elusive terrorist, Phantom, for six months and the first real clue he finds is a partial print that belongs to Dr. Yara Yates, an epidemiologist who is skilled in monitoring infectious diseases and bioterrorism threats. Cason decides the best way to draw a terrorist out of his hole is to dangle a carrot underneath his nose. Kidnapping the lovely doctor, he plans to use her as bait, but something changes that Cason isn’t prepared for.

Yara believes the man who kidnapped her must be one of Phantom’s thugs who plans to kill her after she sent an unexpected clue to authorities. More than the fear for her own life, she must protect her family. They are in danger. How will she ever prove that she helped Phantom because she had no other choice?

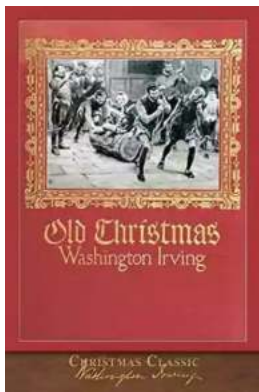

After an accident leaves them stranded in a cabin on a quiet mountain, Cason and Yara will have to rely on each other to make it out alive. He with his combat skills and she with her knowledge of terrorists, they will make

the best team, but when attraction kicks in and an internal blaze threatens to consume them, they find that Phantom might not be their only problem...
