Adrienne

I'm both terrified and thrilled to be the new artist for the hottest coming soon game in the industry--double entendre intended.

The start-up gaming company I work for likes to push boundaries, including adult ratings, no limit on in-game partners, and some moderately graphic depictions of all the different ways to get down and dirty with two or more people.

Given that I'm inching my way toward forty and my experience in the bedroom is limited to a couple of less than attentive ex-boyfriends, I'm not sure I can pull off the realistic designs that are expected of me.

Two sexy men have got my back... and my front... and every bit of me from head to toe. Because they're going to help me work through the various positions the game is supposed to portray.

In front of a camera.

For drawing reference, of course.

And as long as I remember this is all for purely research purposes, I'll be fine.

I can remember that, right?
