Rooney Jennings is out of his mind.

Lending

To be fair, a lot of his friends would claim that he was never in his right mind.

He was raised by two carefree pranksters who fell head over heels in love and he grew up hearing about their love story and wondering if he would ever just see someone and instantly know that they were meant to be.

He had just about given up on that happening when he spots Sayler Jones, the spunky computer programmer who can make him laugh like no one else.

They should be happy together, they're both interested in one another and they just click.

There's just one problem.

Sayler has been promised to another.

Will pursuing Sayler ruin everything? Or will he finally get the happily ever after that he's been dreaming about ever since he first laid eyes on her?
