

Some Of The Facts You Need To Know

Are you someone who loves to learn new things and be knowledgeable about different topics? If so, you're in for a treat! In this article, we will uncover some interesting facts that you probably didn't know. Get ready to expand your knowledge and impress your friends with these fascinating tidbits!

Fact #1: The Eiffel Tower grows in summer

Did you know that the Eiffel Tower, one of the most iconic landmarks in the world, actually expands during the summer months? Due to the heat, the iron structure expands by approximately 15 centimeters. This fact might seem insignificant, but it showcases the dynamic nature of materials and how they respond to temperature changes.

Fact #2: Honey never spoils

Honey, the delicious golden liquid produced by bees, has an incredible shelf life. Archaeologists have discovered pots of honey in ancient Egyptian tombs over 3,000 years old that are still perfectly edible! This is because honey has low moisture content and acidic pH, creating an environment where bacteria and other microorganisms cannot survive.

Fact #3: Human bones are stronger than steel

Despite their seemingly fragile appearance, human bones are actually stronger than steel. Comparing bone density and strength to the same

volume of steel, bones come out on top. In fact, the femur, the strongest bone in the human body, can support up to 1,200 pounds of weight. This showcases the remarkable adaptability and strength of our skeletal system.

Fact #4: The Great Wall of China can be seen from space is a myth

We've heard the saying that the Great Wall of China is the only man-made structure visible from space. However, this is nothing more than a myth.

Astronauts have confirmed that the wall is difficult to spot from the International Space Station, even with the help of binoculars. Although it is an impressive architectural feat, it is not visible to the naked eye from space.

Fact #5: Your brain generates enough electricity to power a small lightbulb

The human brain is an incredible organ that produces electrical activity. Although we can't visibly see it, the electricity generated by our brains is enough to power a small LED lightbulb. It's estimated that the average brain produces around 10-23 watts of power, which is a fascinating fact to ponder!

RANDOM FACTS

That you won't believe are true

You fart on average **14 times** a day, and each fart travels from your body at **7 mph**.

Kangaroos can not walk **backwards**.

While you sleep you can't **smell anything**, even really, really bad or potent smells.

Your brain uses **10 watts** of energy to think, and does not feel pain.

Snails take the longest naps, some lasting as long as **three years**.

Hippopotamus **milk** is pink.

Before 1913 parents could **mail their kids** to Grandma's – through the postal service.

Some fish cough. **Really.**

Are you terrified that a duck is watching you? Some people are. That is **Anatidaephobia**.

Cans of diet soda will **float in water**, regular soda cans will sink.

You can cut a pie into **8 pieces**, with only three cuts.

In a room with **23 other people**, there is a **50% chance** that two of the people in the room will share a birthday.

All babies are born with **blue eyes**.

Love carrots? Don't eat too many or you will turn orange.

Fact #6: The shortest war in history lasted only 38 minutes

In 1896, the Anglo-Zanzibar War broke out, holding the record for the shortest war in history. The conflict lasted for a mere 38 minutes before a ceasefire was declared. This amusing fact showcases how wars can sometimes be resolved more quickly than anticipated!

Fact #7: Polar bears are invisible to infrared cameras

Polar bears, known for their white fur, are remarkably skilled at avoiding detection. Due to their fur's unique structure, they are almost invisible to infrared cameras. This makes it challenging for researchers to observe them accurately, highlighting the adaptability of these fascinating creatures in their natural habitat.

RANDOM FACTS

All babies are born with blue eyes.

Love carrots? Don't eat too many or you will turn orange.

Fact #8: The Mona Lisa was stolen from the Louvre in 1911

In 1911, the famous painting Mona Lisa by Leonardo da Vinci was stolen from the Louvre museum in Paris. The theft stunned the art world, and the painting wasn't recovered until 1913. This story showcases both the audacity of the criminals and the worldwide fascination with this iconic masterpiece.

Fact #9: Dolphins give themselves unique names

Dolphins are highly intelligent creatures known for their communication skills. Recent studies have discovered that dolphins give themselves unique names or signature whistles, which act as their personal identification. This provides further insights into the complex social behaviors and intelligence of these incredible marine mammals.

Fact #10: The world's largest snowflake was over 15 inches wide

Ever wondered how big a snowflake can get? The largest snowflake ever recorded was a whopping 15 inches wide! This extraordinary fact showcases the wonders of nature and the sheer beauty that can be found even in something as delicate as a snowflake.

The world woke up this week to the horrifying news and pictures of desperate Afghans rushing through and overrunning the tarmac at Kabul's international airport, all in a last desperate effort to flee the country which seem to have fallen into the hands of the Taliban.

This is coming after twenty years of war which has taken the lives of over 6000 American soldiers and civilians, with over 100,000 Afghans lives lost and trillions of dollars expended by the United States government. This is so saddening.

The Taliban are back to power and in full control of the country: something the lost after the sickening events of September / 11.

While there were concerns that this may happen, it was not expected to happen so swiftly while the Americans were even still withdrawing. It is a shock which will take some time for the people and residents of Afghanistan to recover from.

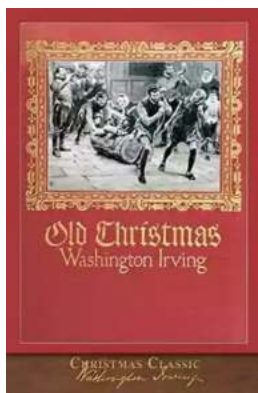

Even the world is in shock right now.
