What Readers are Saying about Dr. Prepper:

“The X-Files has found its funny bone!” Amazon Review

“Margaret Lashley does not disappoint with the second installment. The only downside is that the book had to end! I can’t wait for number three!” Amazon Review

“Full of wacky characters, amazing descriptions, and lots of theories of the unknown, this book makes for a funny mystery.” Amazon Review

"Not a scary or over the top paranormal book. I stayed up until 2:30 in the morning reading it. It was just that good! I’m a real scaredy-cat, just not into reading about things that go bump in the night. It is filled with quirky characters, mystery and a lot of humor. So if you want to be truly entertained, READ THIS BOOK." Amazon Review

"Plenty of mysteries and slap stick humor with a backwoods redneck cousin thrown in the mix. I almost felt like I was reading a cross between Terry Pratchett and Piers Anthony." Amazon Review

“WOW...Lashley does it again. Installment #2 in this rare book series is another that one reads with a perma-press smile. The laugh out loud banter

between the main characters moves almost as fast as the twists, turns and u-turns of the mystery. The situational descriptions of many of the player's actions and activities are unforgettable. Bobbie's unspoken thoughts...are as humorous as what she says out loud. Whodunit? You will not guess until the shocking moment of reveal." Amazon Review "

If you enjoy sci-fi, drama, mystery, comedy and just a tiny tease of romance, then this is for you!" Amazon Review

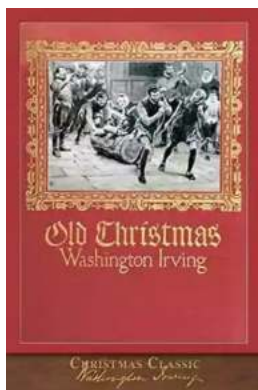

"Rampant with humorous banter and fun interpersonal relationships over a solidly bizarre mystery and great characterization." Amazon Review

"This is a rollicking ride from the very beginning with laugh-out-loud prose, rednecks, weirdos and Tootsie Pops...oh my!" Amazon Review
