This is a very short story about why you have what you have and what holds you there, all learned by the Author first hand....as in the hard way. Made to get you to look outside of yourself to handle the life you live instead of living inside your head in the middle of all that noise. Book 1 of 10 of Play Ball is written to put the spirit of play back in your life. Warning, this book will not change your life, you will. Book 1 is putting the ground work in place so you can start seeing the world as it is, which is the only place you can start from if you want to change it. There's no way to get from here to there if you don't know where here is and where you want there to be.

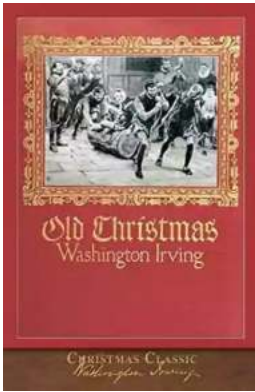

The Author is just a guy that's built a life from seeing what he wants and making it happen. He's not setting in a classroom somewhere trying to tell others how to live a life he's never lived. He's lived by the idea that every thing you do has a starting point, just like any game. In baseball the game is always started with the umpire saying PLAY BALL!!!! Each step in life is a new game and so it's only fitting to start this off right..... PLAY BALL!!!!

Authors note: "I'll never be a great writer nor do I want to be, but I do want to help others have a fun and happy life."
